SUMMARY

Experienced Technology Lead with 10 years of experience in designing and developing software solutions. Solid expertise in Node.js, JavaScript, and other web development languages. Proven ability to lead successful teams and deliver quality projects on time. Seeking the position of Technology Lead/Senior Developer (Node.js) to lead development initiatives and mentor junior team members effectively.

EXPERIENCE

Technology Lead

InfosysMay 2022 - Present, Trivandrum, Kerala

- Led the design, development, and deployment phases of serverless applications, utilizing advanced technologies such as AWS Lambda.
- Offered mentorship to team members by sharing expertise in serverless architecture, best practices, and coding standards.
- Collaborated closely with clients to understand their needs, provided timely updates, and addressed queries or concerns effectively.
- Showcased problem-solving skills by devising creative solutions within the serverless landscape to meet complex business requirements.
- Managed timelines and resource allocation across multiple deployment phases within a project, ensuring 100% on-time completion for each deployment.

Senior Software Engineer

Envigo TechnologiesJanuary 2020 - May 2022, Kochi, Kerala

- Explored and implemented serverless technologies to enhance project functionalities and scalability.
- Led 2 project teams concurrently, ensuring efficient coordination and successful project deliveries.
- Designed and developed a Microsoft Web Outlook Plugin, subsequently published on the Microsoft Store for wider accessibility.
- Contributed to various projects by actively participating in the planning phases, providing valuable insights for software architectural enhancements.

Senior Software Engineer

Epixel Solutions Pvt LtdMay 2018 - January 2020, Palakkad, Kerala

- Explored and applied technologies including blockchain and face recognition API to enhance project functionalities and security measures.
- Built and deployed a NodeJS-based API server, reducing response time by 40% and handling more concurrent users.
- Successfully developed a Payout App designed to distribute funds (Bitcoin/Ethereum) to multiple users. Upon user request, the system autonomously transfers funds to their respective wallets, ensuring a 100% accuracy rate in fund distribution and swift transaction completion for each user.

Software Engineer

Tiatech Health TechnologiesApril 2017 - May 2018, Thrissur, Kerala

- Engineered robust infrastructure capable of managing concurrent socket requests from over 1000 devices efficiently.
- Created a real-time video chat application using webRTC and NodeJS, enabling seamless video communication.
- Designed a web application facilitating real-time interactions between patients and doctors. The patient-end involves monitoring devices (camera, BP monitor, thermometer, etc.) transmitting vital readings to the doctor's web interface. Additionally, the system allows doctors to remotely control patient cameras for enhanced monitoring.

Software Engineer

DC infotecJanuary 2015 - April 2017, Thrissur, Kerala

- Successfully executed multiple end-to-end projects using cutting-edge technologies, resulting in a 25% reduction in project completion time and a 30% increase in product performance.
- Composed APIs for different mobile and web applications.
- Manage different web applications for various domains such as e-commerce, matrimonial, booking Management and etc.
- Leveraged the start-up's extensive learning resources to steer 4 projects from planning to deployment.

EDUCATION

Master of Science in Computational Science

Cochin University of Science • Kerala • 2014

Bachelor of Science in Computer Science

University of Calicut • Kerala • 2012

SKILLS

Technical Skills: Nodejs Developer, Nodejs, Javascript, Html, Css, JQuery, Soap, Apis, Backend, SQL, MYSQL, Postgresql, Elastic Search,Django,PHP, Micro Services, AWS, AWS Lambda

Project management, Mentorship, Client collaboration, Agile
