

Muhassin Babu MM

Technology Architect

Kerala, India | muhassin.babu@emvigotech.com | linkedin.com/in/muhassin-babu-mm

SUMMARY

Technology Architect and Team Lead with over 11 years of experience designing and delivering scalable, cloud-native solutions. Skilled in building enterprise applications with Node.js, Django, PHP, and microservices architecture, with hands-on expertise in AWS Lambda and serverless deployments. Adept at mentoring teams, driving code quality, and ensuring production excellence. Experienced in cryptocurrency technologies and modern backend ecosystems, combining technical depth with strong problem-solving and design skills.

EXPERIENCE

Bespoke Technology Architect, Level 1

Emvigo Technologies

Feb 2026 - Present | Kochi, Kerala, India

- Lead the architecture of scalable, cloud-native platforms and services.
- Design and productionize agentic workflows and modern Node.js backends.
- Drive technical direction, code quality, and production excellence across teams.

Technology Lead

Infosys

May 2022 - Jan 2026 | Trivandrum, Kerala, India

- Led the design, development, and deployment of serverless applications using AWS Lambda.
- Mentored team members on serverless architecture, best practices, and coding standards.
- Collaborated closely with clients to understand needs and deliver timely updates.
- Managed timelines and resource allocation, ensuring 100% on-time deployment completion.

Software Engineer

Emvigo Technologies

Jan 2020 - May 2022 | Kochi, Kerala, India

- Explored and implemented serverless technologies to improve scalability.
- Led two project teams concurrently, ensuring efficient coordination and delivery.
- Designed and built a Microsoft Outlook Web plugin, published on the Microsoft Store.

Senior Software Engineer

Epixel Solutions Pvt Ltd

May 2018 - Jan 2020 | Palakkad, Kerala, India

- Applied blockchain and face-recognition APIs to enhance functionality and security.
- Built and deployed a Node.js API server, cutting response time by 40% and handling more concurrent users.
- Developed a crypto Payout App distributing Bitcoin/Ethereum to users' wallets with 100% accuracy.

Software Engineer

Tiatech Health Technologies

Apr 2017 - May 2018 | Thrissur, Kerala, India

- Engineered infrastructure handling concurrent socket requests from 1000+ devices.
- Built a real-time video chat application using WebRTC and Node.js.
- Developed a telemedicine platform streaming patient vitals to doctors with remote camera control.

Software Engineer

DC Infotec

Jan 2015 - Apr 2017 | Thrissur, Kerala, India

- Delivered multiple end-to-end projects, reducing completion time 25% and improving performance 30%.
- Composed APIs for a range of mobile and web applications.
- Managed web apps across e-commerce, matrimonial, and booking-management domains.

SKILLS

Backend & Languages: Node.js, JavaScript / TypeScript, Python / Django, PHP, jQuery

Data, APIs & Cloud: SQL / MySQL / PostgreSQL, Elasticsearch, REST & SOAP APIs, Microservices, AWS Lambda / Serverless

Specialties: Agentic Workflows, Blockchain / Crypto, WebRTC / Real-time systems, Team leadership & mentorship

EDUCATION

Master of Science (MSc), Computational Science

Indian Institute of Information Technology & Management - Kerala (IIITM-K)

2012 - 2014

Bachelor of Science (BSc), Computer Science

College of Applied Science, Nattika - University of Calicut

2009 - 2012
